EXPLANATIONS

1. The fact that a birth, marriage, or death is recorded in Taunton does not prove that it occurred there, unless it is so stated in the record. When places other than Taunton and Massachusetts are named in the original records, they are given as they appear there; but when Taunton is named, the initial letter only is used, except in unusual phrases.
2. In all items from town records the original spelling is followed, and no attempt is made to correct errors appearing in the records.
3. A baptism is not printed, if it occurs within one year after the recorded date of birth of a child of the same name and parents or if it is clear that the child baptized is identical with the child of the birth record; but variations found in the baptismal record are added to the birth record.
4. The birth of a married woman is recorded under her maiden name, if it is known. But if the maiden name cannot be determined, the entry appears under the husband's name, with a dash enclosed in brackets, i. e., [—], to signify that the maiden name is unknown. If it is not known whether the surname is that of a married or unmarried woman, "? m." is placed in brackets after the Christian name.
5. Marriages and intentions of marriage are printed under the names of both parties. When both the marriage and intention of marriage are recorded, only the marriage record is printed; and where a marriage appears without the intention being recorded, it is designated with an asterisk.
6. Additional information which does not appear in the original text of an item, i. e., any explanation, query, inference, or difference shown in other entries of the record, is bracketed. Parentheses are used to show variations in the spelling of a name in the same entry, to indicate the maiden name of a wife, to enclose an imperfect portion of the original text, and to separate clauses in the original text.
7. The Taunton fire of 1838 destroyed the original town records. To replace them a copy of the early records of births, marriages, and deaths was made, under the direction of the town officials, from all original sources available, and this compilation has been used as the basis of the present printed volume.
8. The Vital Records of Rhode Island, compiled by James N. Arnold, contain many Taunton items, which have not been incorporated in this volume.
